Sessions at a Glance

December 9 – 12, 2019 | Las Vegas, NV | gartner.com/us/io

Gartner IT Infrastructure, Operations & Cloud Strategies Conference

Cloud and Infrastructure Delivery Strategies
Build Cloud Infrastructure
Manage and Automate Hybrid Environments
Emerging Technologies
Evolution of Core Technologies
Edge and Endpoint Strategies
Lead the Evolution of I&O
IT Operations Management
Protect I&O Assets
Skills and Culture

Emerging Technologies for Frontline Workers
How and When Should Sanitzer's Computing Come Into Play?
Success with Automating
Dissect I/O Success
The State of the IoT Network Landscape
Magic Quadrant and Critical Capabilities for Hypervisors
Finding and Containing Rogue Devices Requires a New Network Strategy
Agile, Meet DevOps. What to Do When Dev Goes Agile
The Product-Centric Infrastructure Organization
State of Cloud DR in 2019
Taking SRE Steps to Scale DevOps.

Is It Time to Pull the Enterprise Networks Access Layer on Autopilot?
What Is Happening to Your Organizations Cloud Strategy?
Four Networking Issues Every IoT Solution Must Solve
Accelerating I&O's Contribution to Digital Transformation
15 Infrastructure KPIs for Digital Business Transformation
Will IT Resilience Orchestration Improve Your Disaster Recovery Capabilities?
Personalizing I&O's Transformation for Individuals

Avoiding the Top Mistakes in Your Organizations Cloud Strategy
How to Implement Software-Defined Infrastructure as a Service for Hybrid Cloud and Edge Environments
Best Practices in Modern WHIs
Delivering Composable, Programmable and Intelligent Infrastructure Across the Portfolio
IoT Opportunities and Challenges in 2019 and Beyond
Four Steps to Adopt Open-Source Software as Part of the DevOps Toolchain
Take an Ecosystem Approach to Application Portfolio Management
Is Your Infrastructure Return on Investment Today's Environment?
Start Building Your Automation Team NOW

Simplifying Infrastructure Apollo Workload and Delivery
The State of Container Technology 2019 Through 2023
Implementing Software-Defined Infrastructure for Hybrid Cloud and Edge Environments
Best Practices in Modern WHIs
Delivering Composable, Programmable and Intelligent Infrastructure Across the Portfolio
IoT Opportunities and Challenges in 2019 and Beyond
Four Steps to Adopt Open-Source Software as Part of the DevOps Toolchain
Take an Ecosystem Approach to Application Portfolio Management
Is Your Infrastructure Return on Investment Today's Environment?
Start Building Your Automation Team NOW

Building Cloud Native Networks
Magic Quadrant: Cloud Infrastructure as a Service, Worldwide
Artificial Intelligence: What Should I&O Leaders Expect and Do To Succeed?
Just Call Me IASE: The Merge of WAN Edge and Edge Security
The Impact of Cloud and Internet of Things on ERP Infrastructure
Ashware Physical Security at The Edge
Hybrid Digital Infrastructure Capabilities Needed for Digital Business Success
Selecting the Right Tools for Multicloud
Resilient Infrastructure Delivery in Hybrid IT Environments
Avoid These Container Mindfields and Align With Your Organizations Plans

How to Navigate Hybrid Container Software Market
Welcome to the Fascinating Future of Multicloud
Reasons Why Your All Project Will Fail (and What to Do Instead)
Server Class Memory: Implications for Infrastructure and Applications
The Infrastructure Strategies Hyper Cycle
The Evolution of Endpoint Strategies in Support of Digital Workplaces Initiatives
An Iterative Adoption Approach to Key to DevOps Success in Large Organizations
How to Select the Right Cloud Management Tools
Cloud Security and Data Protection in Multicloud Environment to Isolate
Changing Roles for Operations in the Era of Cloud and DevOps

Midsize Enterprise Infrastructure in the Cloud Era
The Cloud Computing Scenario Strategy and Tactics for Success
Reduce Cloud Spend and Risk by Identifying I&O's Role in Cloud Governance
Moby Busters: AIQs and What It Really Means for I&O
The Leading Edge: Why Does Edge Matter and What Should I Do?
Improve Operational Agility With These Top 5 Methods
Top Cost Reduction Ideas
Backup for SaaS Applications: What You Need to Know
Scaling for Digital Success Tackling the I&O Skills Gap

An I&O Leader's Guide to Containerization, Kubernetes and Microservices
Cloud Strategy Cookbook
Managing IT in a Hybrid and Multichild World
NetOps 2.0: Transform WithAutomation and Analytics or Become Inept
What's New in Networking
Cloud Infrastructure as a Service
To Succeed in Digital Business, Transform Your I&O Team From Project Management to Product Delivery
Your 90-Day Action Plan To Control Public Cloud Spend
Software Asset Management
Managing Services Addresses the Elephant in the Room
Strategies for Scaling DevOps Efforts

Best Practices for Running Containers and Kubernetes in Production
Cloud Strategy Workshop: Building a Cloud Strategy To Meet Your Business Goals
The Road to DevOps: How to Build the Continuous-Infrastructure Automation Pipeline
The Impact of I&O on Infrastructure and Operations
Best Practices in Data Center Networking
Why Do You Still Have Virtual Desktops?
Will There be an I&O Function in 2025?
Resilient CNDM Future Cycle With Service Asset and Configuration Management
Managing Software Assets in a Cloud World
How To Fix the Software Engineering Resource Gap in I&O

One-Page Cloud Strategy for Midsize Enterprises
Optimizing End-to-End Multivendor Management in Contemporary and Cloud Services Ecosystems
Technical Insights - The Field Guide to Infrastructure Automation
The State of Edge Computing 2020: Beyond Vision
Optim-Optimal Returns From Hyperconvergence
Cloud and Edge — Partners in Next-Generation Solutions
Achieving an Optimal Infrastructure and Operations Organization Structure for the Digital Age
Cloud: Cost Optimization Under Cost Management and Governance
What Does the I&O Leader Need to Know About Cloud Security?
IT Score for I&O Workshop

Cloud, Infrastructure and Security: The Midsize Enterprise I&O Trinity
How to Successfully Build a Cloud-Centric Excellence of Traditional ROI Calculations Don't Work for the Cloud: How to Build the New Business Case
The Impact of Outpost, Azure Stack and on the Hybrid Cloud
Hybrid Cycle for Compute Infrastructure
Leading Edge Computing Some Assembly Required
The I&O Scenario: Embracing Chaos to Creating Tangible Value for the Business
Adaptive Release Governance Removes Constraints to DevOps
Best Practices for Backing Up Office 365 Data
How MSE CIOs Can Create a Sustainable Culture of Innovation

Cloud Infrastructure and Security: The Midsize Enterprise I&O Trinity
Role of CMs, MSPs and CBs in the Enterprise
How MSE I&O Teams Should Manage and Secure a Hybrid Environment
Hyperfine, and Changing Role of I&O Thriving in a World of External Services
Managing and Containing the Challenges of Cloud Computing
How Do You Monitor What Barely Exists?
The Edge Computing Gateway: The Next Frontier in Application Architecture and Delivery
Top 10 Myths About Modern Infrastructure (and How to Dismantle Them)
Strategic Roadmap for Edge Computing
The Art of I&O Culture Hedging
Why "Everyday" Isn't the Best Ecosystem Solution for IT
Attain and Retain With a Compelling Employment Value Proposition

Diversity, Equity and the Changing Role of I&O Thriving in a World of External Services
Adaptive Governance: Coping With the Challenges of Cloud Computing
Innovate and Contain the Changes of Cloud Computing
How Do You Monitor What Barely Exists?
Quantum Computing: What Do MSE Leaders Need to Know?
Unlock Your Network for the Digital World
Magic Quadrant and Critical Capabilities for Unified Endpoint Management, 2019
How to Manage Projects Like Projects Lessons Learned From Manufacturing
Using Azure I&O Solutions (AIQs)
Secure Your Backup Data Against Ransomware Threats
Building the Virtual Workforce for Maximum Effectiveness

Legacy Cloud Providers on Customer Prem and at the Edge
Cloud Security and Data Protection for the Multi-Cloud Enterprise at the Edge
Microservices Composable Infrastructure: Separating Hype, Hopes and Reality
Unwinding the WAN Edge Magic Quadrant
The Future of Endpoint Operations
Best Practices for Operationalizing Artificial Intelligence
Top 10 Security Projects for 2019
Fueling Innovation for Successful Product Launches
