Winning in the Turns: Define Your Strategy, Optimize Your Cost, Nurture Your Talent

Top performers defy conventional thinking during disruptions. The most successful companies take risks in “the turns,” which can be economic, geopolitical, environmental, social or competitive.

Gartner Supply Chain Symposium/Xpo™ 2020 provides supply chain leaders and executives with must-have insights, strategies and frameworks they can use to build agility and robustness into systems, processes and decision making.

Value in attending

• Understand key supply chain trends coming in the next five years
• Learn how peers are responding to risk as they develop strategy
• Support adaptive strategy and accelerate decision making
• Learn how peers are effectively creating value across the supply chain
• Invest in operating capabilities that deliver competitive advantage
• Improve your sales and operations planning, demand and supply planning through accountability-based practices
• Enhance your inventory performance, metrics and algorithmic planning
• Target practical sustainability goals for CSCOs
• Identify strategic technology trends with the potential to drive disruption and deliver opportunity
• Create a responsive supply chain organization to deliver exceptional customer experiences

Hot topics

• Future of supply chain
• Strategic planning
• Leadership and talent
• Strategy realization and governance
• Procurement influence
• Maximizing supply base
• Digital manufacturing
• Supply chain value and cost optimization
• Supply chain visibility and technology

The CSCO Circle

Gartner’s CSCO Circle program is designed to address the needs of chief supply chain officers and heads of supply chain. This exclusive program provides an opportunity to network and collaborate with peers, and learn current trends and best practices facilitated by a Gartner supply chain expert. The CSCO Circle features exclusive workshops, roundtables and networking opportunities as well as access to all programming in the main conference agenda.

Qualifications for admission include:

• Must be the most senior supply chain executive in your organization
• Must be a CSCO of a regional or divisional unit of your company with 5,000 or more employees within that respective region or division

You can apply during registration, and you will be notified of your application status by email.

Who should attend

• CSCOs and heads of supply chain
• Heads of supply chain planning
• Heads of sourcing and procurement
• Heads of manufacturing
• Heads of logistics
• Heads of customer service
• Heads of supply chain IT
